DELIVERY

**\$100 Prioritisation**  
To help groups prioritise anything

**1-2-4-All**  
Tap into the wisdom of crowds

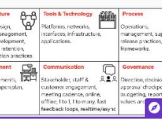

**10-for-10**  
The ultimate brainstorming exercise!

**15/5 Reports**  
Reporting for people who don't have time for reports

**4Ls Retrospective**  
A team activity to understand what was liked, learned, lacked, and longed for at the completion of a sprint or...

**6 Dimensions of Discovery**  
Gather, document, sort and prioritise our challenges and bright spots across 6 dimensions.

# What is Open Practice Library?

## Open source Repository

—  
A repository of practices  
and tools driven by a global  
community

## Outcome-driven practices

—  
Practices are organized  
based on the Outcome  
Delivery Model

## Toolbox for driving discussions

—  
Leverage the practices in a  
modular, flexible way based  
on the context, learning,  
and experience

# Core Values

## Friendly

---

We are here to be friends  
with and make connections  
for the Open Practice  
Library

## Trustworthy

---

We strive to provide  
expertise and advice that  
will seamlessly fit into users'  
work life

## Inspiring

---

We will venture into the  
unknown and share  
experiments that will drive  
innovation of the library

# Focus on Outcomes

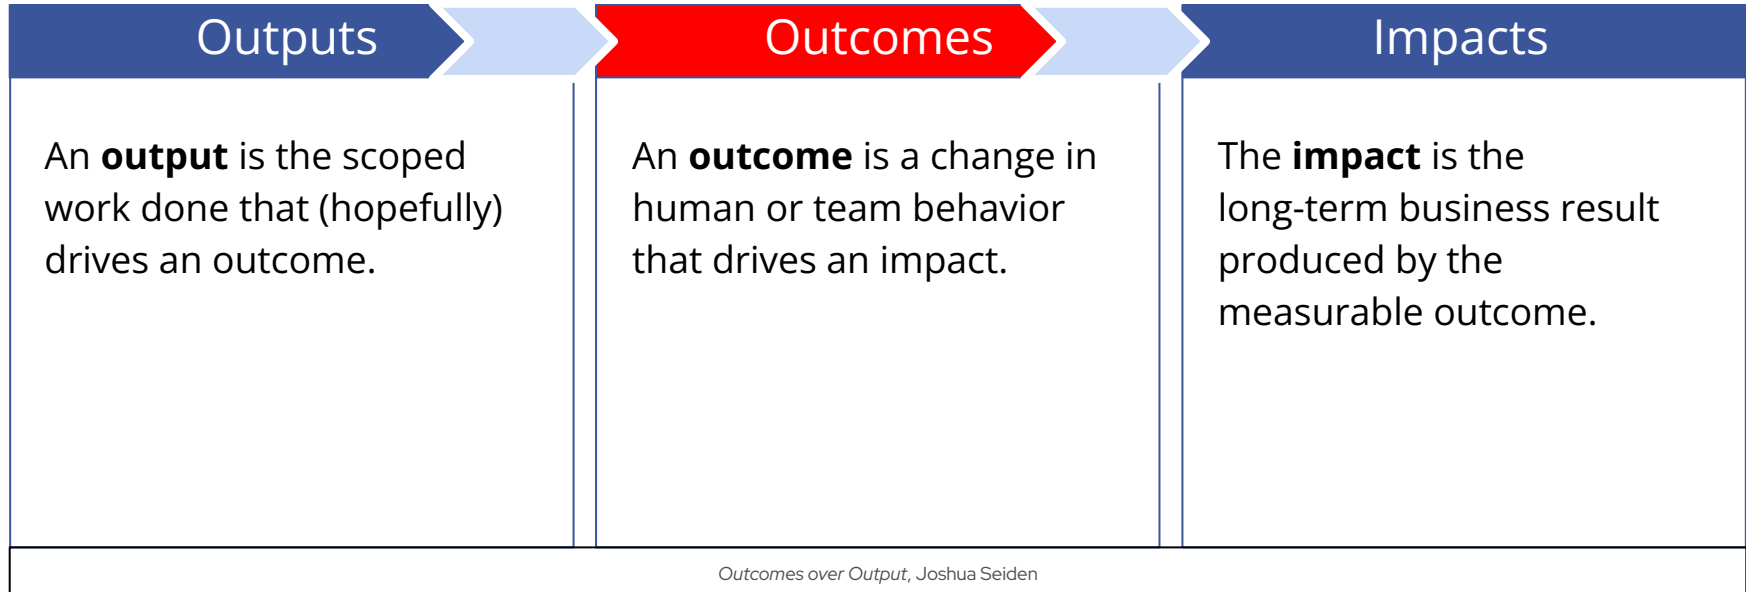

The Open Practice Library organizes the practices with a focus on outcomes.

Does the practice help the team:

- Generate the outcomes?
- Identify how to get there?
- Implement and put ideas to test?

# Shifting the conversation

From “what” to “why” -- What is the difference?

# Why use it?

Practices are created by people who use them daily, for people looking to be inspired with new ideas and experiences.

---

# How do we use it?

Uses the Mobius Loop model, built on a foundation of Culture and Technology, to navigate between an evolving number of open practices

The Mobius Loop is a continuous process model for rapidly developing digital products

# A walk through the Loop

# Discover Loop

## Why & who

What is the problem to solve or idea to pursue?

Who are the target customers and what do they need?

## Outcomes

How will we measure the impact?

# Deliver Loop

## Why & who

What is the problem to solve or idea to pursue?

Who are the target customers and what do they need?

## Outcomes

How will we measure the impact?

## Deliver

Run experiments and deliver to customers.

## Measure & learn

Measure the impact and learn what we should do next

# Decide

## Why & who

What is the problem to solve or idea to pursue?

Who are the target customers and what do they need?

## Outcomes

How will we measure the impact?

## Options

How will we achieve the outcomes?

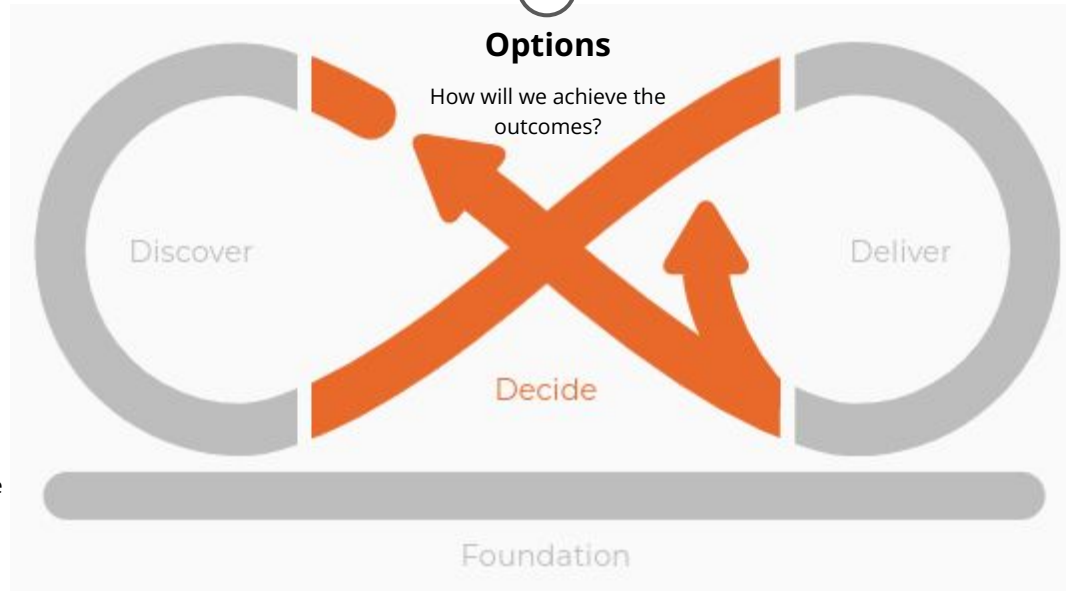

## Deliver

Run experiments and deliver to customers.

## Measure & learn

Measure the impact and learn what we should do next

# Foundation

## Why & who

What is the problem to solve or idea to pursue?

Who are the target customers and what do they need?

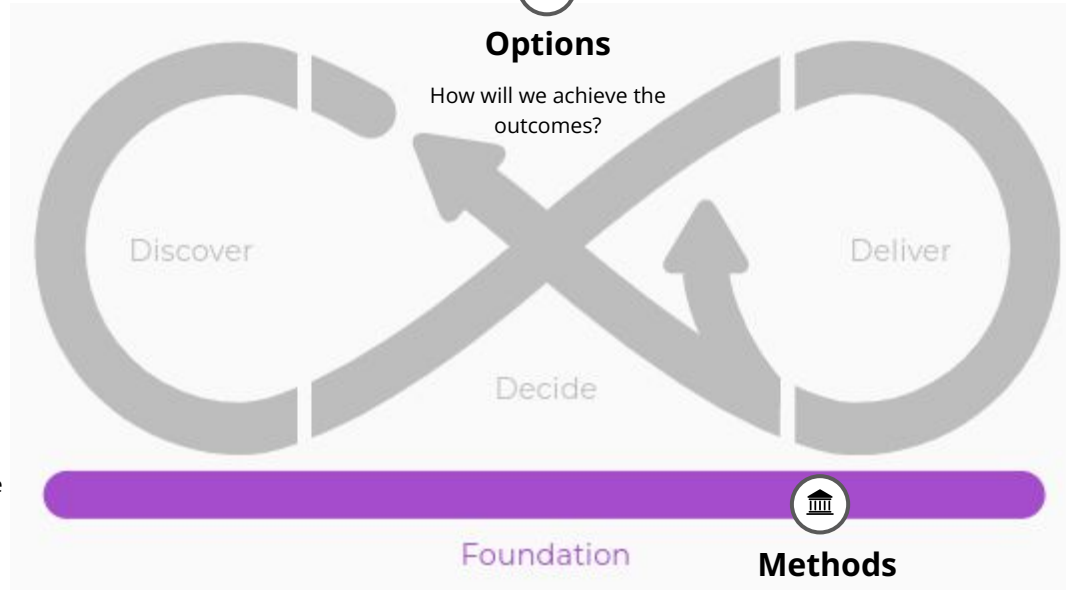

## Outcomes

How will we measure the impact?

## Options

How will we achieve the outcomes?

## Deliver

Run experiments and deliver to customers.

## Measure & learn

Measure the impact and learn what we should do next

How is the team operating? Are we using the right methods? What best practices are we using?

# What is a practice?

An activity that helps teams achieve specific goals.

Not just an idea; it's something you **do**.

---

# A practice **MUST** be...

Empowering

Concise

Agnostic

Proven

---

# A practice **SHOULD** be...

Approachable

Deep

Visual

Structured

Accessible

Replicable

Novel

Learned

# Example of Practices

## Discover

### Start at the End

Helps to identify a goal and to evaluate assumptions and changes.

## Foundation

### Parking Lot

Helps to track important items that may not be important to discuss at the time, but the group does with to discuss later.

## Decide

### Impact & Effort Prioritization

Decision-making practice for selection of ideas. It is a 2-by-2 matrix comparing Impact vs. Effort.

## Deliver

### Kanban

Visualized workflow management method to maximize efficiency and become more agile.

# We are Open - How to contribute

## Open an issue

Submit improvement or additional ideas to GitHub

<https://github.com/openpractice/openpracticelibrary/issues>

## Improve a practice

Instructions for writing content is shared [here](#).  
Open Practice Library uses Netlify CMS to manage content. Follow the guidelines.

## Add a new practice

Use Netlify CMS to add a new practice. Confirm that the new practice satisfies the must-be criteria and submit for a moderators' review.

# Thank you!!!

We want you in the community!!!
